

KBS

The diagram is a railway timetable for the Berlin S-Bahn, showing routes between stations like Scharnweide, Prenzlauer Berg, and Gesundbrunnen. The diagram uses a grid system with vertical lines for stations and horizontal lines for time slots. Routes are color-coded: blue for S-Bahn, green for U-Bahn, and red for other lines. Various train numbers and line identifiers (e.g., RB15180, S7, S8) are labeled along the routes. The diagram is oriented with time increasing from left to right.
